

PRODUCT INFORMATION

SSC-300 Cap Sealer

The SSC-300 cap sealer/tamper evident bander is a powerhouse applicator loaded with features and options. The same engineering principles go into all of our labelers—simple, robust construction with repeatable performance. If you are looking for a faster cap sealer, take a look at our SSC-600 Cap Sealer Machine.

PRODUCT DESCRIPTION & SPECIFICATIONS

Sleeve Seal SSC-300 Cap Sealers

Sleeve Seal Cap Sealers offer the same rugged construction and precision application as our vertical labelers with rapid tool-less changeover of change parts. Our cap sealers and vertical shrink labelers utilize identical drive trains, allowing the user to switch safely and easily from format to format.
